# WHITE

## Special Features

- Easy accessible threading
- 3-Thread serger to sew rolled edges, decorative stitching and more
- 4-Thread serger to sew a secure safety stitch with ease
- Built-in rolled edge for a perfect rolled edge stitch
- Differential feed system to eliminate puckers
- Recessed cutter for safety
- Adjustable cutting width from 4mm to 7mm
- Adjustable stitch length from basting to satin
- Snap-on presser feet
- Electronic speed control for full piercing power
- Built-in handle and sewing light
- Uses standard sewing machine needles

Check out the White web site for detailed instructions for this adorable little jacket with decorative edge trim using a White Superlock. Visit [www.whitesewing.com](http://www.whitesewing.com)

Visit [www.whitesewing.com](http://www.whitesewing.com) for creative projects!

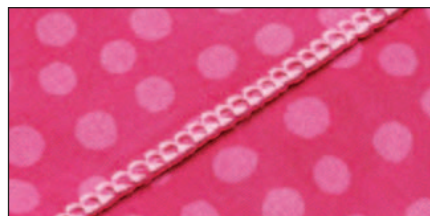

Exclusive "Wide Open Threading" means the front opens completely to reveal loopers and a threading diagram that leads the way through color-coded, lay-in threading channels.

Labeled and numbered tension guides mean no guess work for adjustments. Normal tension settings are all marked.

Complete accessory set comes with instructional video, instruction book, dust cover, oil, tweezers, thread nets, spool adapters, spool caps, thread disks, wrench, screw driver, needles, lower cutter and lint brush.

A built-in rolled edge creates beautiful finishes on linens and more.
